

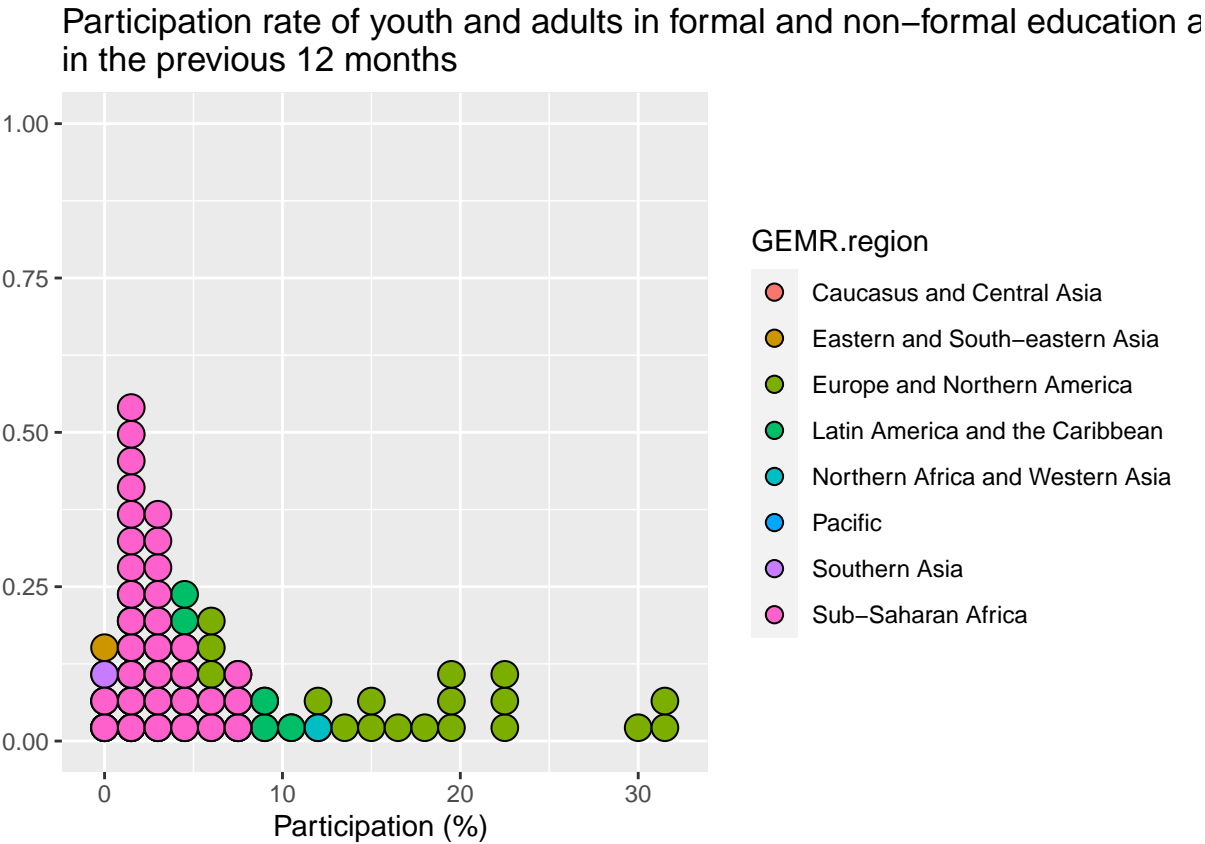

Graph ideas chapter 4.3

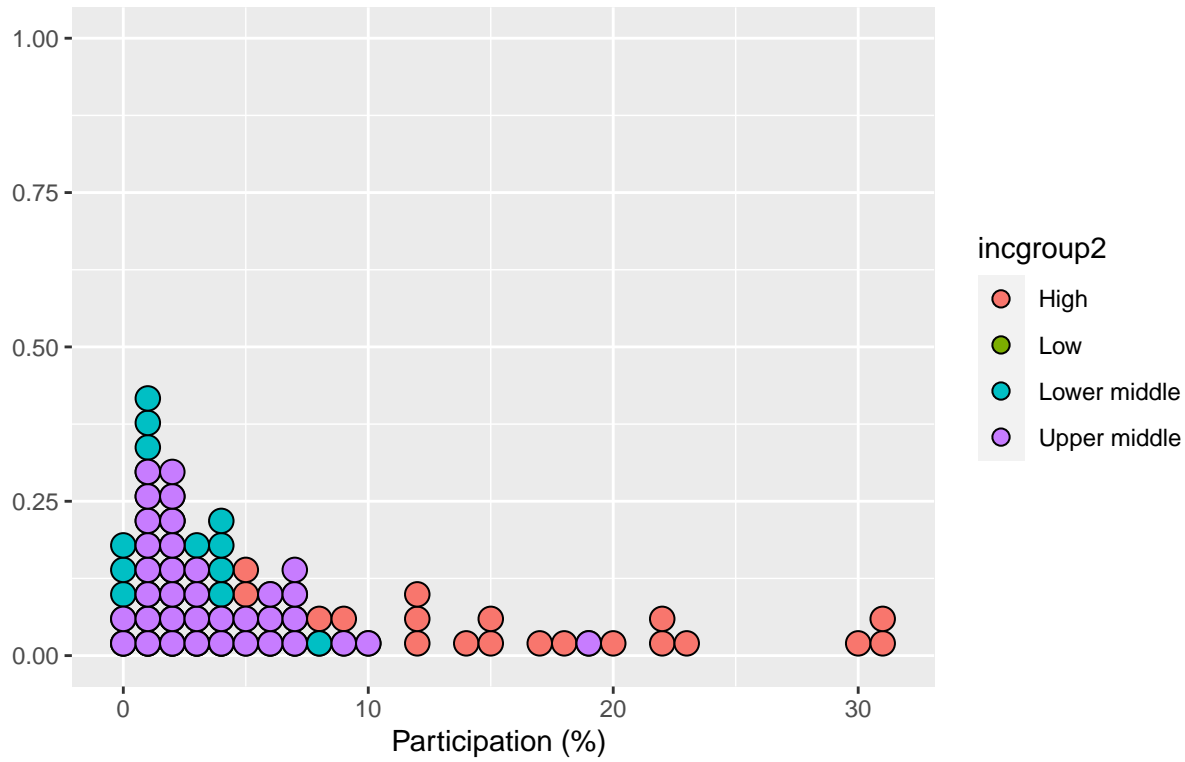

Figure 1: Participation rate

A few choices without gender

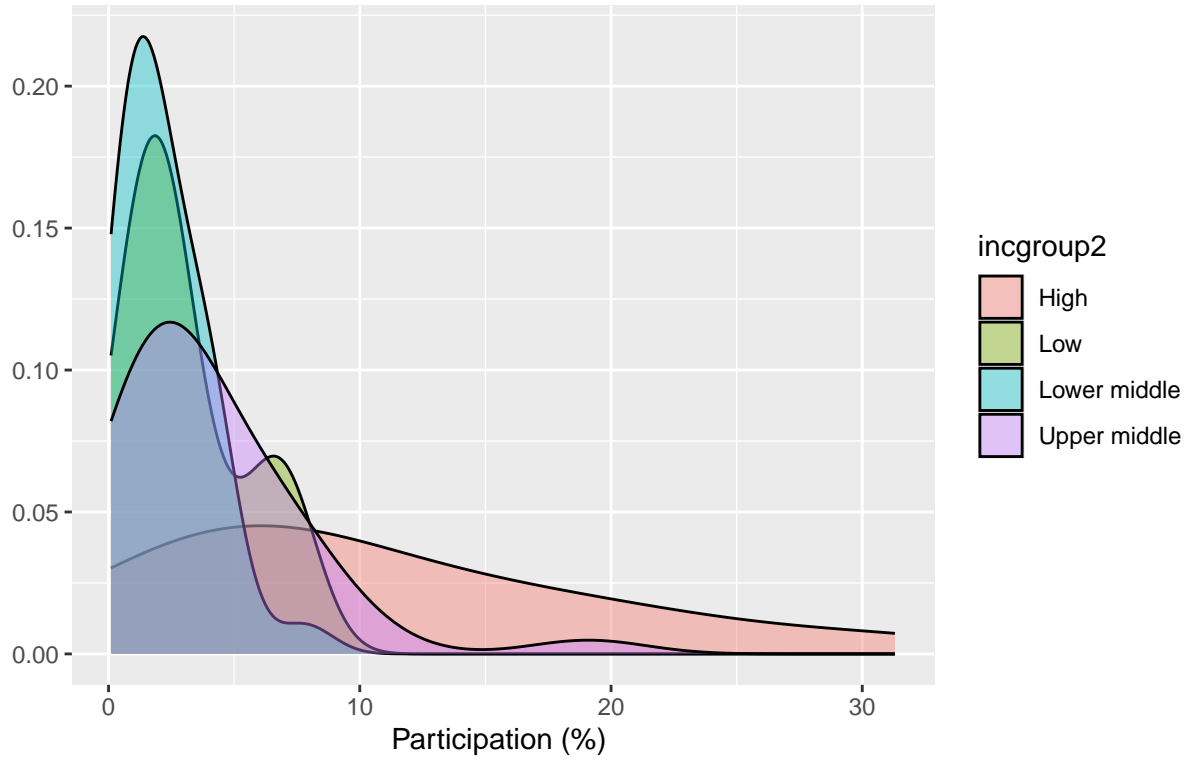

## \pagebreak

Participation rate of youth and adults in formal and non-formal education a in the previous 12 months

## \pagebreak

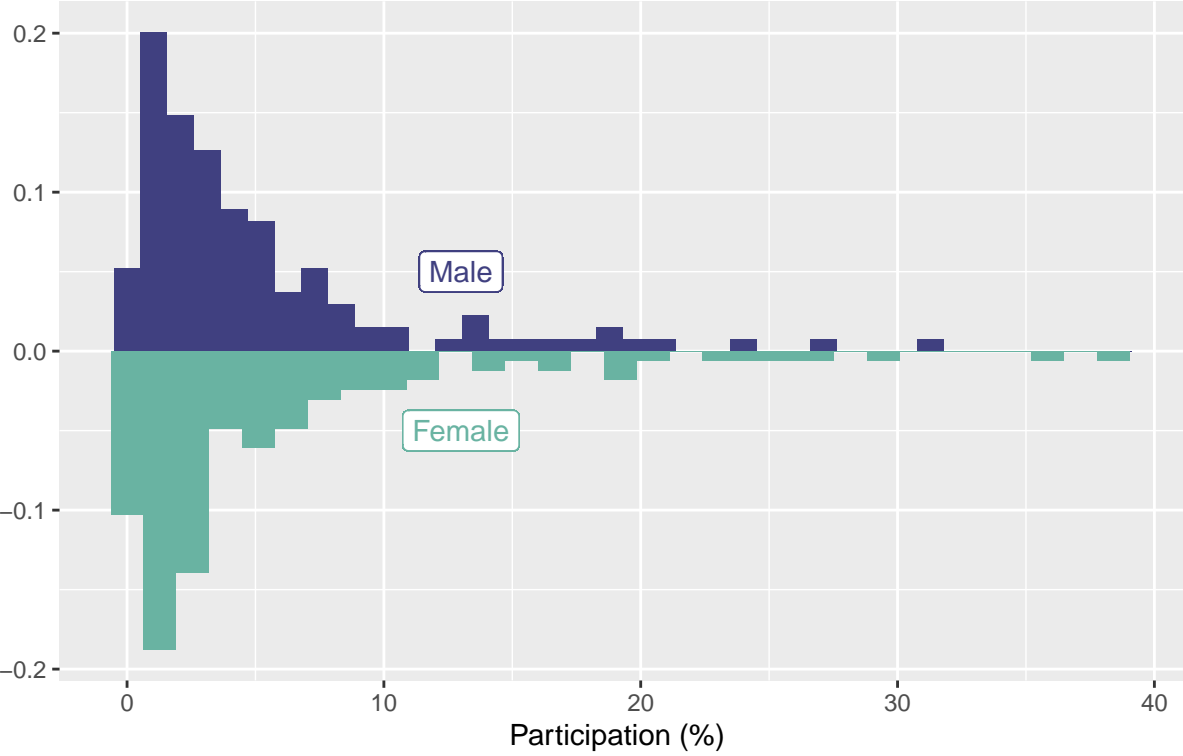

Participation rate of youth and adults in formal and non-formal education a in the previous 12 months

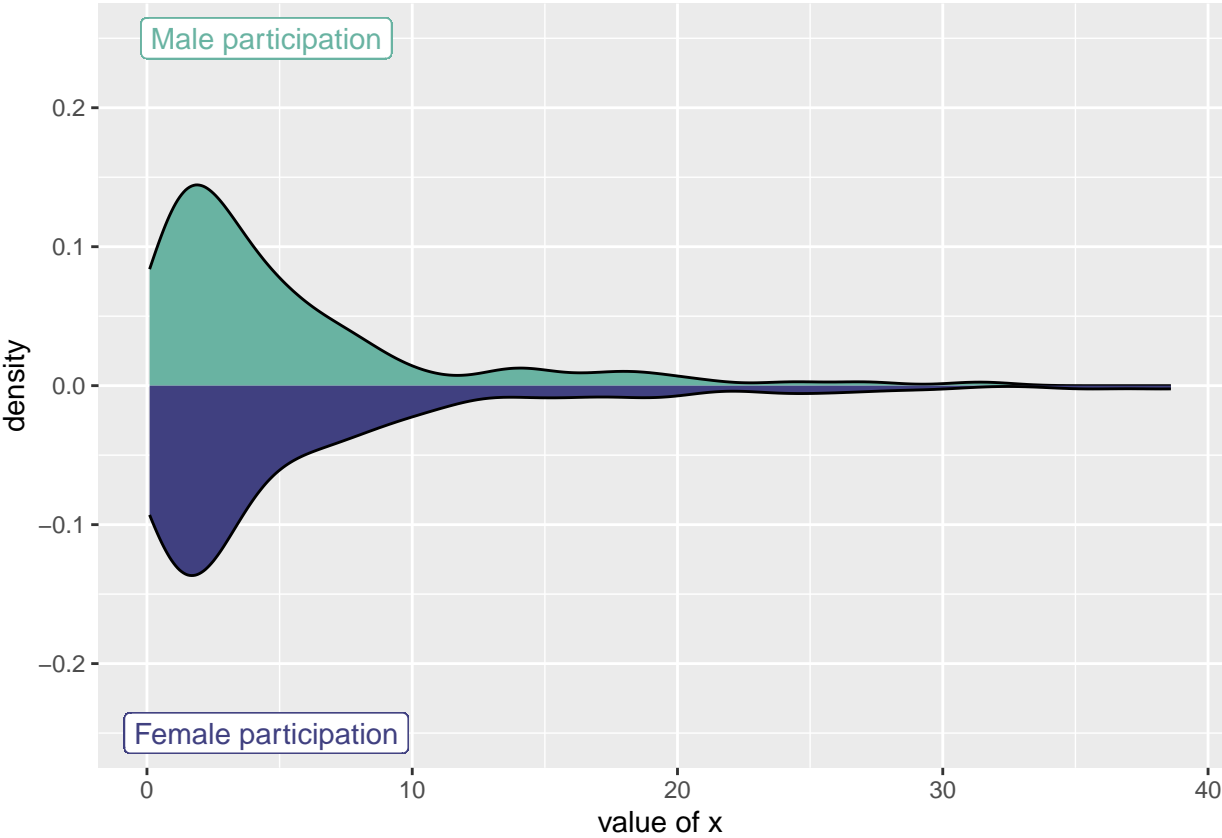

## \pagebreak

Now some choices with gender

Participation rate of youth and adults in formal and non-formal education among 25–54 years old

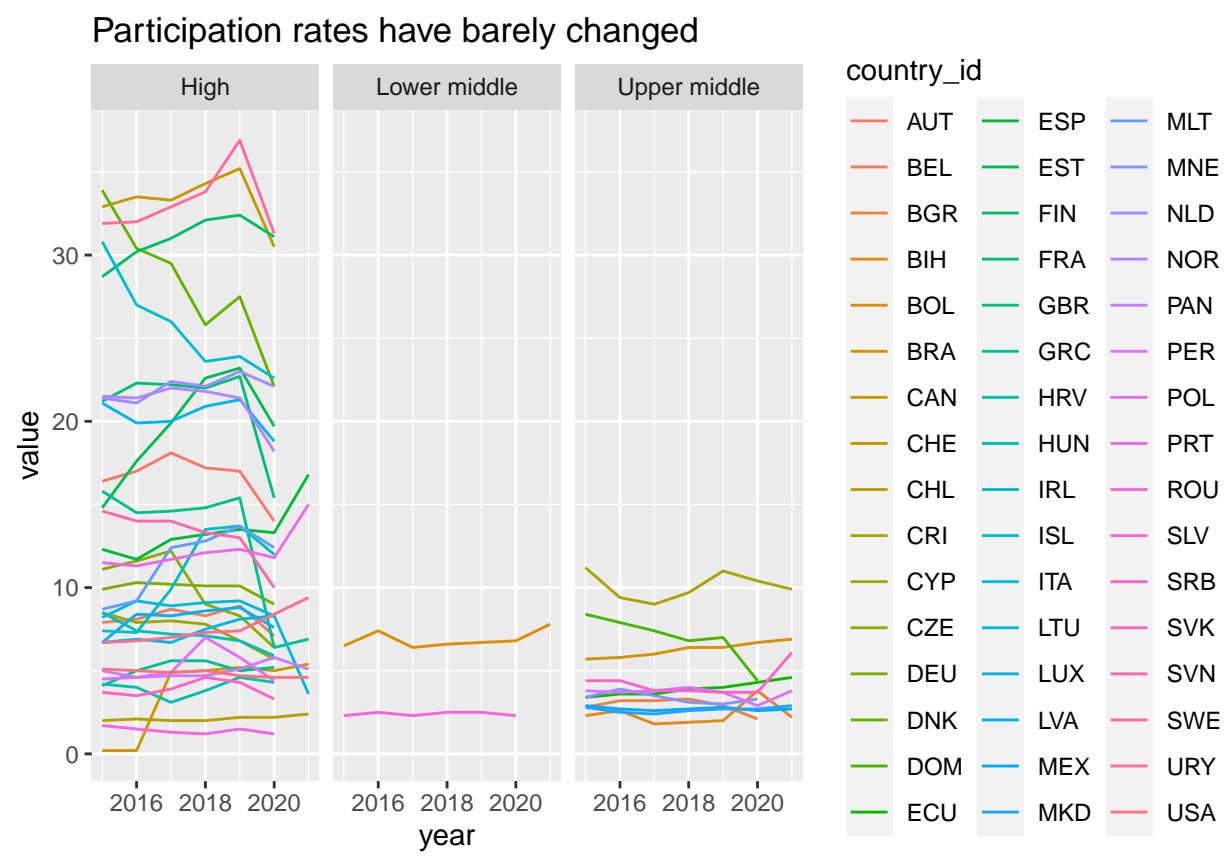

## \pagebreak

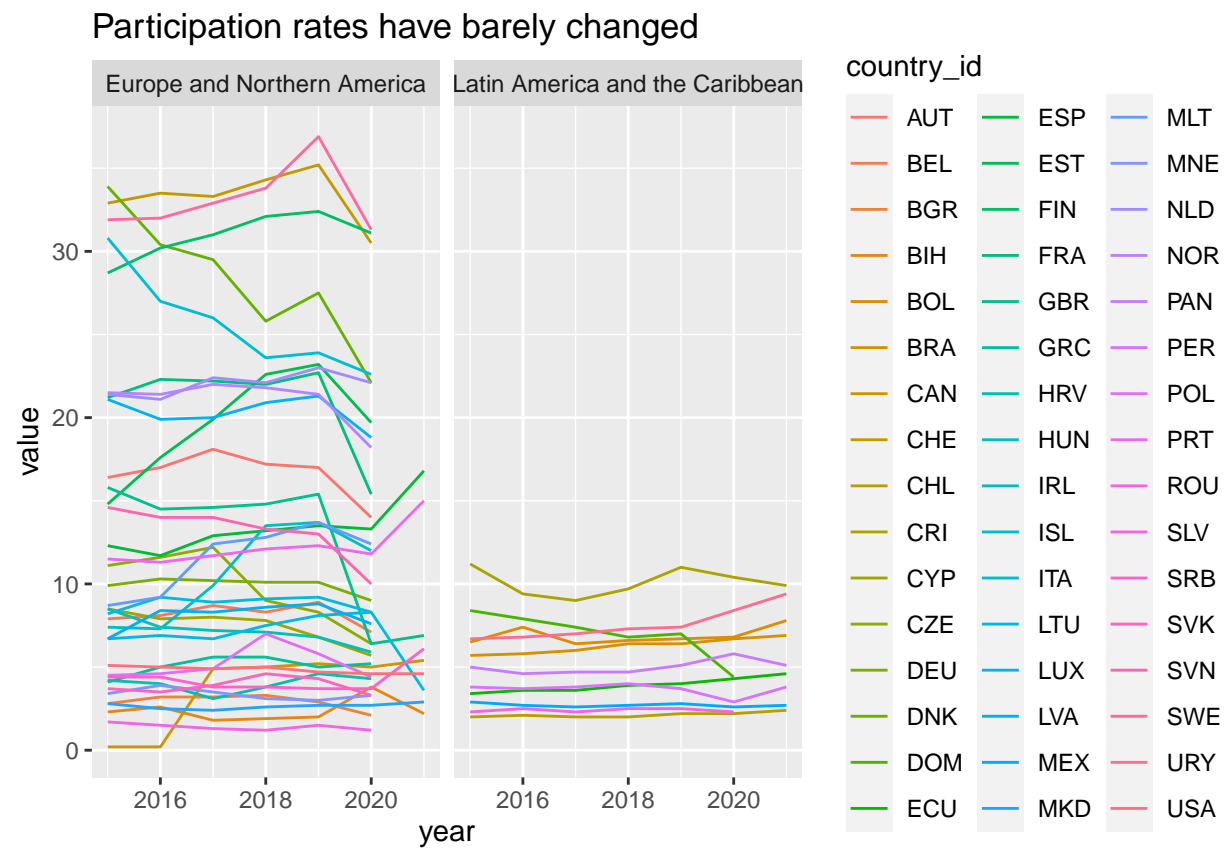

## \pagebreak

Figure 2: Participation rate in time

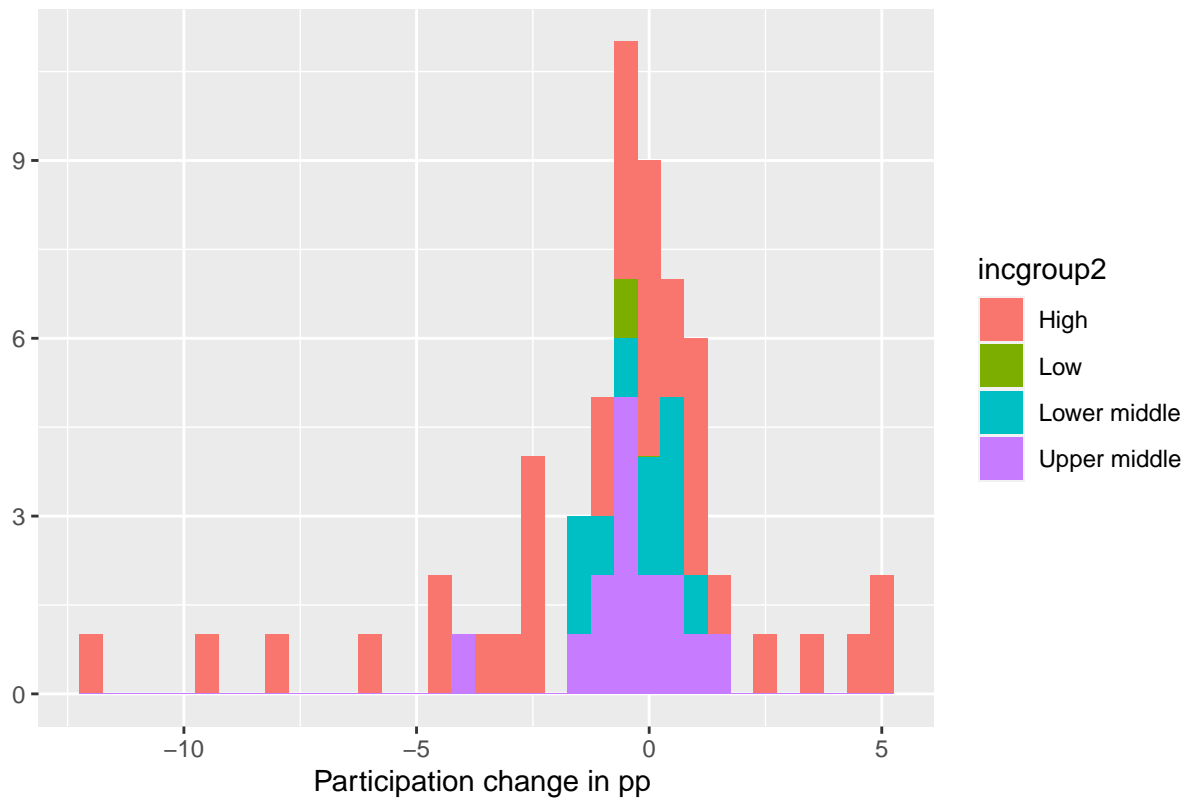

## \pagebreak

Covid impact in 2020?

## Warning: Removed 68 rows containing non-finite values (`stat\_bin()`).

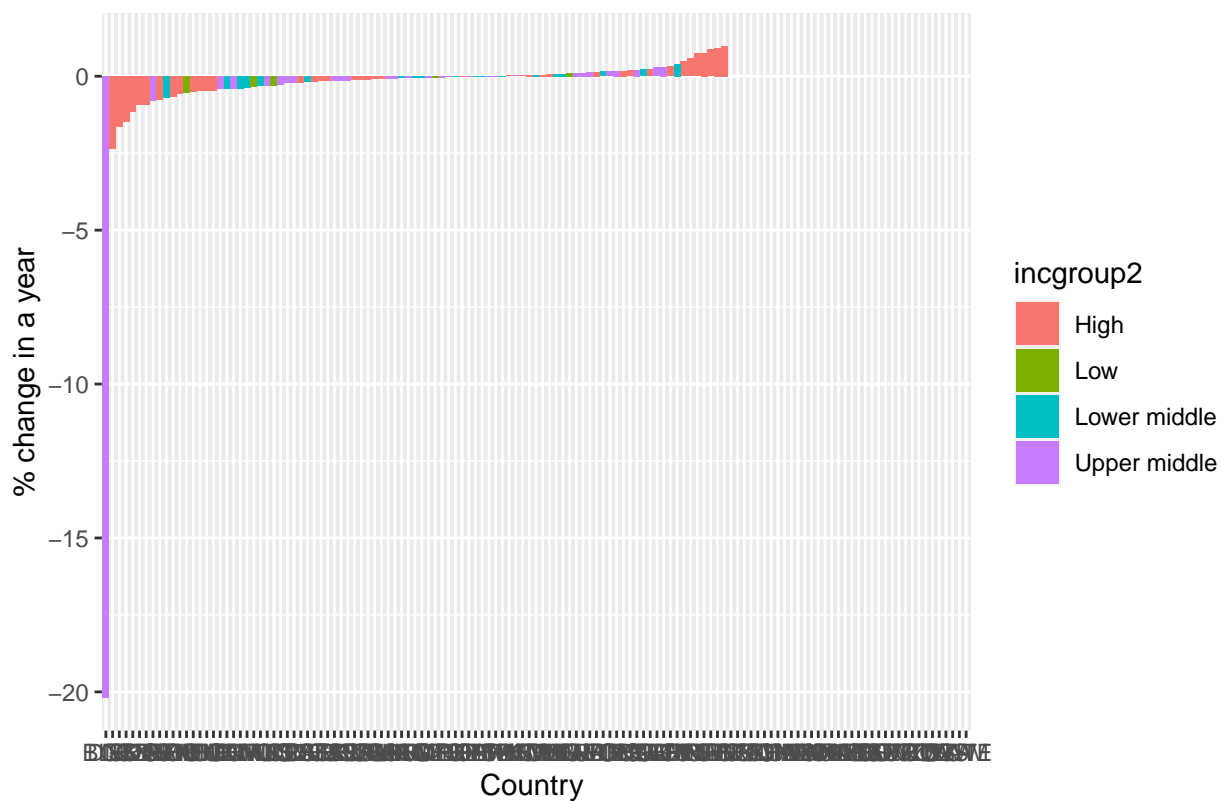

## Participation rate change between 2015 and 2020

## \pagebreak

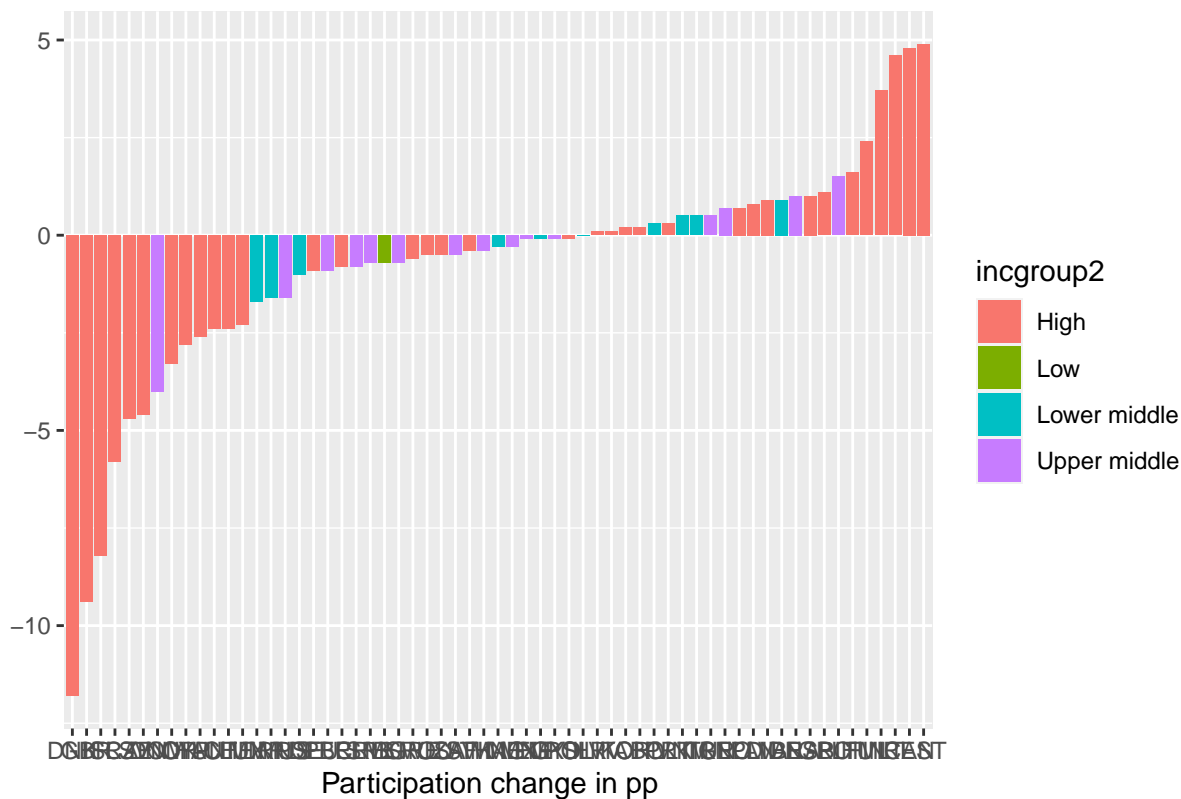

## Warning: Removed 36 rows containing missing values (`position\_stack()`).

## Average annual change in participation

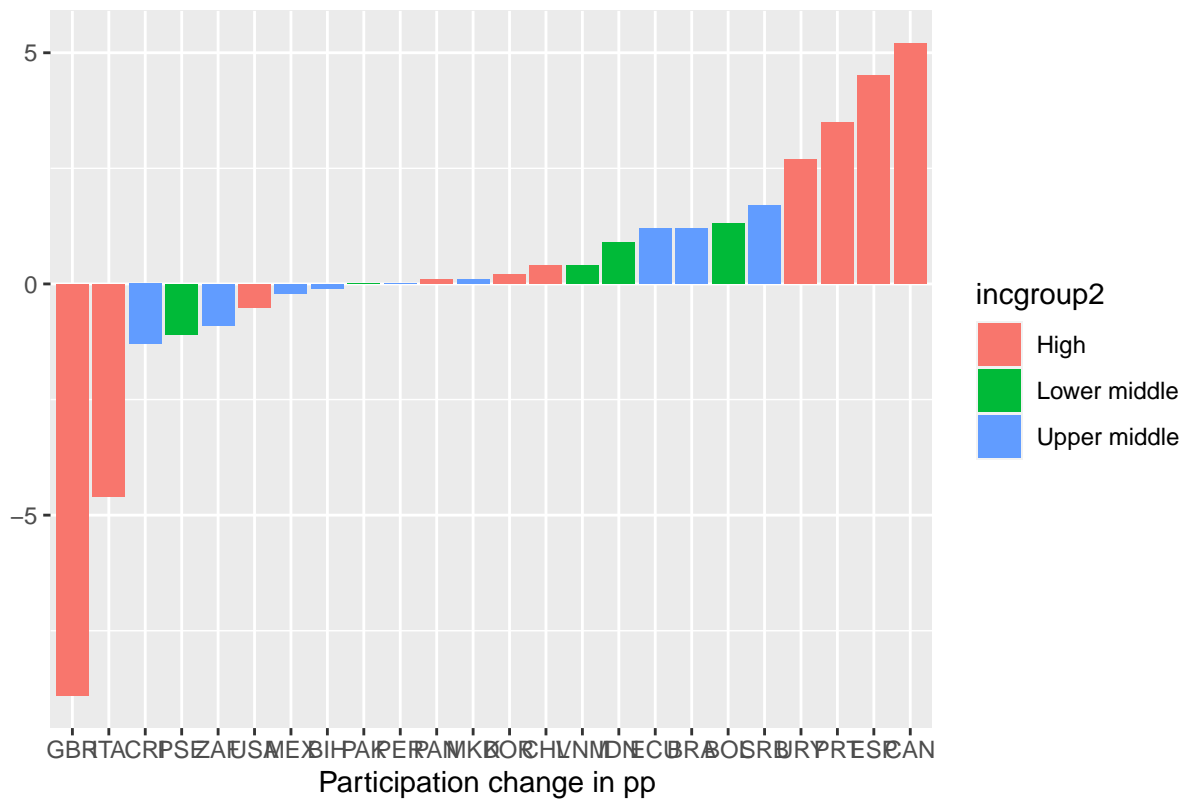

Histogram makes it easy to see that big variations are in rich countries.

Participation rate change between 2015 and 2020

This one has the country labels.

Participation rate change between 2015 and 2021

Most recent data shows the same.
